

# Quick Start with MDA-WinIDE8086

**STEP1** Click the **Start** button in the task bar, then click **All Programs** and **MIDAS ENG**.

Then click the "MDA\_WinIDE8086" program icon, and the "MDA-WinIDE8086" window will be displayed.

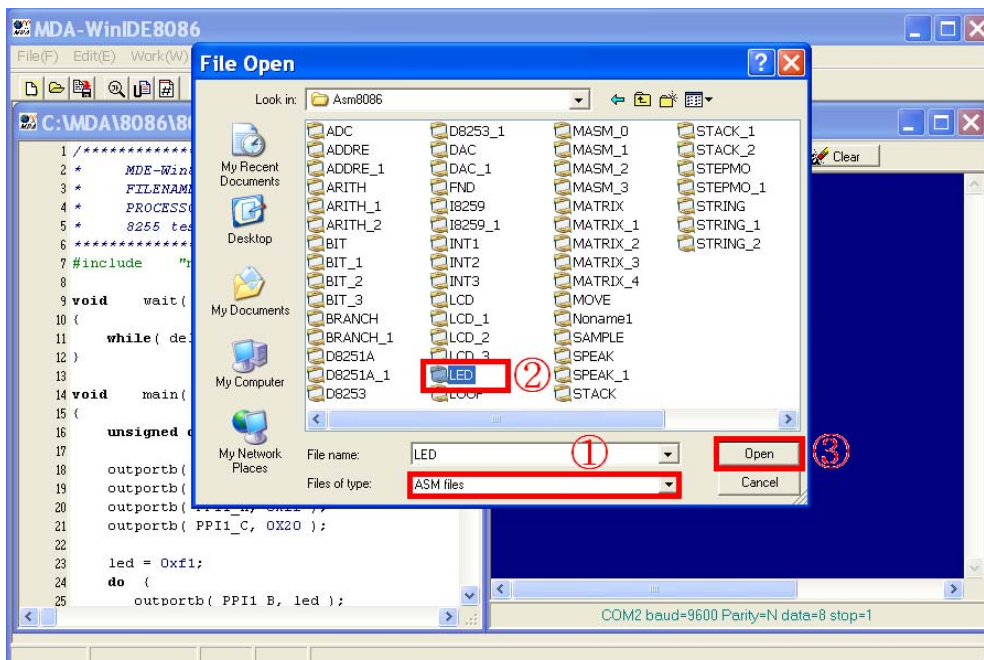

STEP2 Open a source file from the File-Open menu.

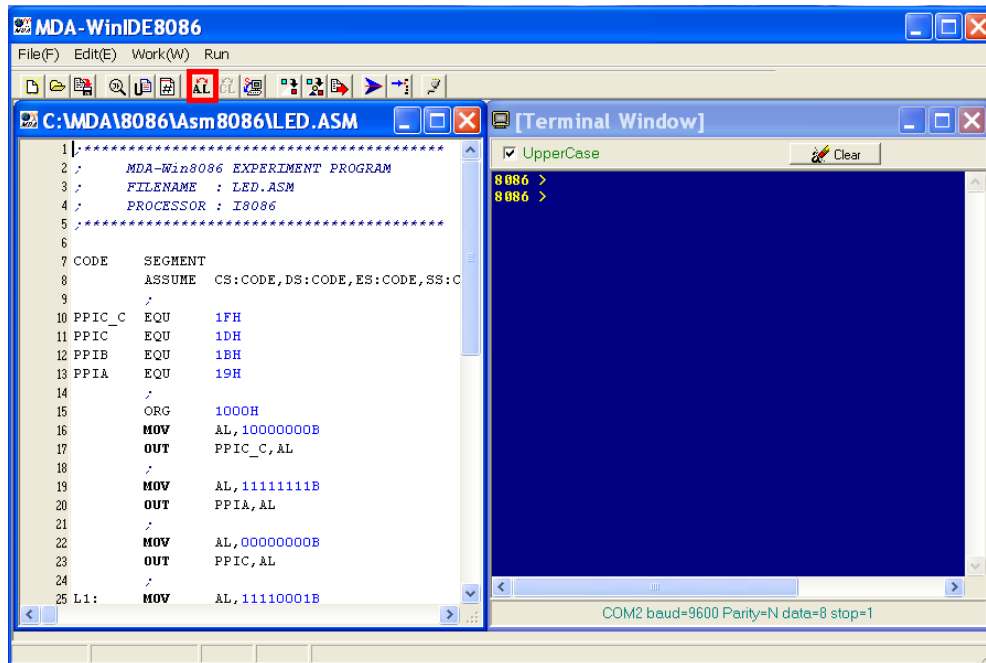

STEP3

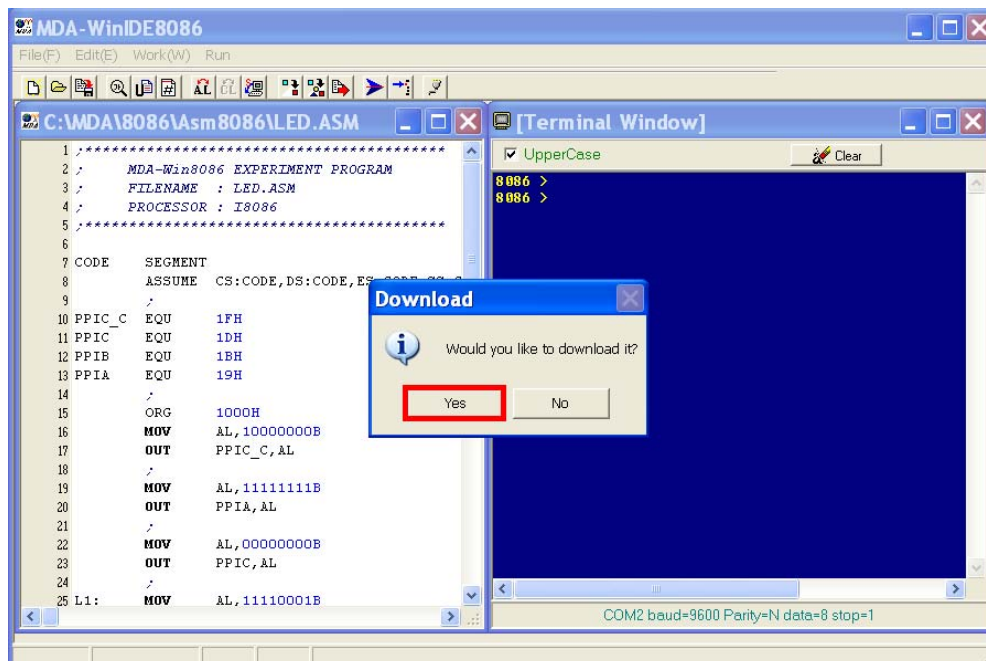

- ① In the Files of types, select a source type from the drop-down list, as an assemble file
- ② Select "Led.ASM" file.
- ③ Click "Open" button.

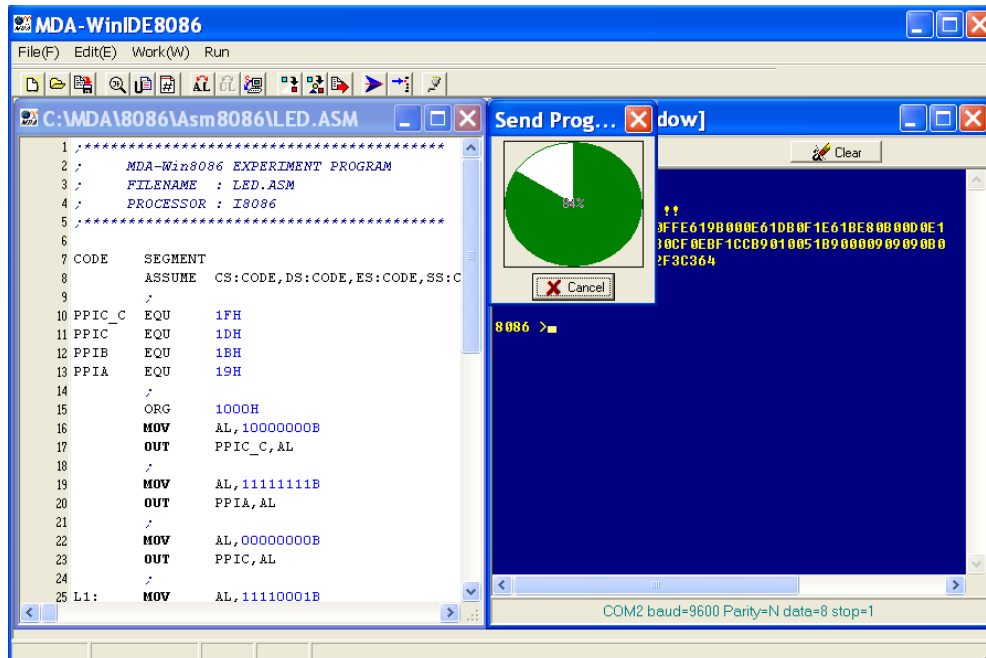

STEP4 Start assembling your target application with the "Assemble and Link" button.

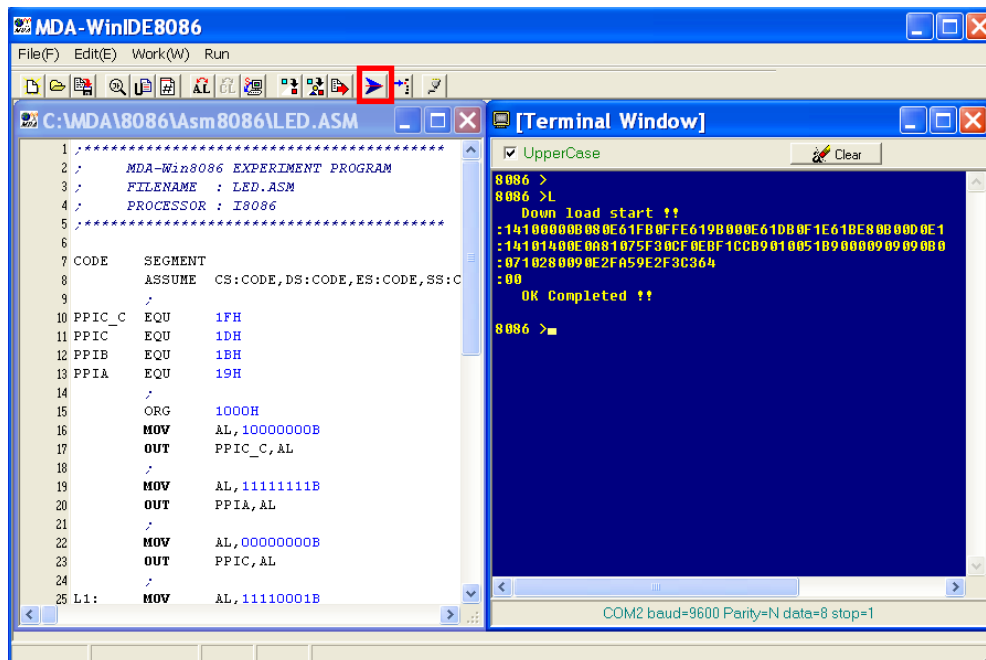

STEP5 If there is no error, following window will be displayed.

STEP6 If you click "Yes" button, your source program will be download from PC into the target.

STEP7 If you click "Run" button, the program will be executed.

STEP8 LED will be shifted.
